### Great Gifts for Gifted Learners

Sometimes shopping for a gifted learner can be a bit stressful. They often have different interests than other children their age. What may seem like a great toy for a child of a certain age may seem "childish" or "boring" to a gifted learner. They often crave intellectual stimulation and enjoy items that will challenge them.

Each year, the Hoagies Gifted website updates their list of the best toys, books, movies, and other gifts for gifted learners. If you are looking for something different that will challenge and engage your child, this is a great website to check out. Many retailers are carrying more of these items, but some will still need to be ordered online. Happy shopping!
